Description: Codebook file for InternatDevelop_v08-22-12.dta.

Notes

InternatDevelop_v08-22-12.dta was created by Paul Manna by merging variables from these three sources:

- **UNICEF** – Compiles data from many sources on various development indicators in countries around the world. Downloaded from:
http://www.unicef.org/statistics/index_step1.php and
<http://www.unicef.org/sowc2012/statistics.php>. Additional information on the UNICEF variables is in Unicef_ByCountry_v2_Codebook.pdf.
- **Freedom House** – Rates the degree of freedom in nations, examining political rights and civil liberties. It also categorizes nations based on whether they are “not free,” “partially free,” or “free.” Data available here:
<http://www.freedomhouse.org/template.cfm?page=15>. Additional information on methodology is in FreedomHouse-Methodology.pdf.
- **Transparency International** – Rates nations on the degree of corruption (i.e., the frequency and/or size of bribes) present in the public and political sectors. Data available at: http://www.transparency.org/policy_research/surveys_indices/cpi/2009. Methodology is here:
http://www.transparency.org/layout/set/print/policy_research/surveys_indices/cpi/2005/methodology.

The setup file for InternatDevelop_v08-22-12.dta is InternatDevelopSetup.do.
